Portals are convenient, but quite expensive, so they're mainly used by nobles and government officials. Getting a license to operate portals is difficult, and I'm sure that the operators get many troublesome customers, so they tend to be calculating and unsympathetic. They earn a lot of their money from bribes, too.

She... She's a human patient looking to get treated...

Even if you try hiding the ears with a hood, I can still tell by the skin color, eyes, and hair.

If you really have to, you can get a special goods transport permit. It will cost you, though.

Excuse me?

I'm sorry, sir, but we don't serve long-eared species here.

SCOWL

Ah...

CLENCH

Just to make sure that the snake wound wouldn't cause problems, I gave myself an antivenom injection. On our second evening after leaving the workshop, we finally arrived at the valley city of Calga, where the nearest portal was. I was concerned that Reszurre might get teleportation sickness, so I decided that we would find a place to stay somewhere. Not in this city, but in the northern city where we'd be teleported to.

M... Mister Apothecary... I am...

Causing problems... Aren't I...?

...!

I'll pay you double, so I'm sure we can skip all the paperwork.

RIGHT?

GLARE

AH!!!
Please wait a moment while I prepare the portal...!

Discrimination against other species became common about 80 years ago. Right now, the relationship between the five races is at its worst. Still, Reszurre needed treatment, and I wouldn't let anyone get in the way of it because of her race or treat her like an object.

Oh, and you only need to pay on the other end! The normal amount will do!

...I'm glad we could come to an agreement.

He isn't normal... He was really about to kill me there.
